WASHING WITHOUT WATER

Is Like Trying to Get Rid of Dandruff
Without Herpicide.

Did you ever see any one trying to
wash themselves without soap or
water?

If you did what would you say of
him?

It is every bit as foolish to try to get
rid of Dandruff and to prevent Bald-
ness by feeding the germs which cause
it, with Cantharides, Vaseline, Glycer-
ine and similar substances which form
the principal ingredients of most so-
called Hair Vigors.

Newbro's Herpicide is successful be-
cause it attacks and kills the parasitic
germs which feed on the hair roots.
It is the original and only genuine
scalp germicide manufactured.
Sold by leading druggists. Send 10c. in
stamps for sample to The Herpicide Co.,

TEN DIE FROM HEAT

Suffering in Country's Metropolis
Is Appalling.

SCORES ARE PROSTRATED

Ambulances Busy all Day Carrying
Sunstroke Persons to Hospitals. Ten-
ement Districts the Scenes of Most
Intense Suffering.

New York, July 10.—Ten deaths and
more than a score of prostrations were
the result of the heat today. The suffer-
ing was intense, especially in the
swarming tenement houses. Ambulances
were busy all day removing sunstroke
patients to the hospitals. From one
o'clock this afternoon until after eight,
the mercury stood at 98.

Tonight a thunder storm that assum-
ed almost the proportions of a deluge,
broke over Brooklyn, Lower Manhattan
and the suburban towns in New Jersey.
It cooled the temperature 13 degrees and
in half an hour and promises to con-
tinue cool throughout the night.

Heat Kills Seven.

Pittsburg, July 10.—Intense heat was
responsible during the last twenty four
hours for seven deaths, two of them
directly by heat and others by drown-
ing, the result of inexperienced swim-
mers seeking relief in the rivers.

Barcelona.

New York, July 10.—A bull fight was
given in honor of the visit of the Brit-
ish Mediterranean fleet under the com-
mand of Lord Charles Beresford, says
a Barcelona dispatch to the Herald.
Twenty thousand people were present,
including officers of the fleet and 500
sailors cheered enthusiastically. The
national anthems of Spain and Great
Britain were played. The fleet was il-
luminated. The cruiser squadron sailed
for Villagarcia at night, the ships being
illuminated with electric lights, the
flagship having a design of the crown
of Spain.

LIABILITIES VERY HEAVY

St. Louis, July 10.—Former Judge
Spence, today appointed receiver for the
Peoples' United States Bank, issued
a statement which shows the total as-
sets to be about \$1,300,000.

These include loans of doubtful value
to E. C. Lewis, the Lewis Publishing
Company and the University Heights
Italy Company aggregating over \$800,-
000.

Besides these there are nearly \$200,-
000 of small loans, many of which are
endorsed by Lewis.

The liabilities amount to \$2,600,000
When Receiver Spence assumed posses-
sion of the bank he was met at the door
by Lewis who formally protested. The
directors of the bank held a meeting
protesting against the action of the
court in appointing a receiver and the
postal authorities for issuing a fraud
order.

feet of the fine marble was broken and
it was said that the damage exceeded
\$3,000.

Pick Pockets Loot Street Cars.

New York, July 10.—Pickpockets

street car and, by locking the rear door,
robbed the passengers of the back plat-
form at their leisure. The gang feigned
intoxication and jostled the other pas-

valuables. Several of those on the car
reported the loss of watches, pocket
books, and valuable scarf pins.

EXPLOSION FATAL

Two Killed At Sumpter and One
May Die.

CONCUSSION FROM BLAST

Man Slips and Falls to Place Where
Blasts are About to Be Ignited. His
Friends Try to Rescue Him But All
Are Hurt.

Sumpter, Or., July 10.—The coroner's
inquest held here yesterday as a result
of the frightful accident at the E. &
E. mine last evening, was attended by
a large number of the mining fraternity.
The accident resulted in more fatal con-
sequences than at first reported, as be-
sides Timothy Ryan, S. E. Morrow is
dead from the explosion.

Ryan who was master mechanic as
well as pumpman at the E. & E., was at
the bottom of the shaft with Morrow
and Guy Harris, two regular shaft men.
After the blasts were set, Ryan, who
was standing on the timbers abreast of
the skip, was told to give the signal to
hoist the skip. He started to do this
when his foot slipped and he was precipi-
tated to the bottom, alighting immedi-
ately upon the spot where the blasts
were set. Morrow and Harris made a
gallant attempt to rescue him, but one
of the blasts exploded and they were
forced to seek safety behind the bulk-
head. Ryan's shoulder and head were
blown to bits, and when found the re-
mains presented a sickening sight.

Morrow and Harris were brought to
the surface apparently uninjured, and
were able to give a lucid account of how
the accident occurred. Later they were
on the streets until a late hour in the
evening at Bourne, near which place
the E. and E. is situated. Upon retir-
ing the two men commenced to spit
blood, very frequently, and continued to
get worse as the night wore on. At
4 o'clock yesterday morning Morrow
breathed his last, and the condition of
Harris is such as to excite the gravest
apprehensions.

Ryan's remains were brought here
Saturday evening and Morrow's body
was brought down yesterday morning
and the inquest held over both at the
same time. A verdict was rendered in
accordance the above facts, and no
blame attaches to the company. Ryan's
body was terribly mutilated, while that
of Morrow was scarcely a bruise, and
the latter's death is simply due to the
concussion, which is thought to have
acted directly upon the heart and lungs.
Harris has no marks upon him, showing
that he also escaped contact with the
flying debris, although his injuries are
about the same as those that caused the
death of Morrow. Ryan was a married
man and has a nephew residing near
Granite, who is employed in the mines
near that place. The other two men
were single and quite young.
